

STOP AMAZON STOP DOMINION

By the end of this year, Warrenton officials will decide if the proposed **220,000 square-foot data center**, **120-foot steel power towers** and an **8-acre substation** will dominate Warrenton

Data center would be visible in all orange shaded areas

The time is **NOW** to prevent dramatic and irreversible change to Warrenton and Fauquier before it's too late

WHAT YOU CAN DO

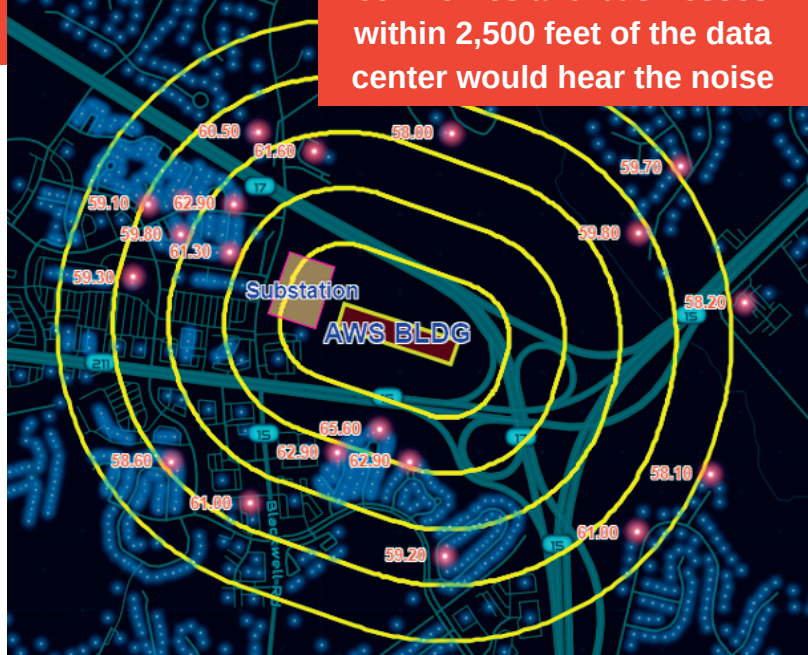

1. Sign the petition:
<https://arcg.is/vW49T>
2. Email, call, request a meeting with Town Council members
3. Attend Town Council meetings

WARRENTON TOWN COUNCIL

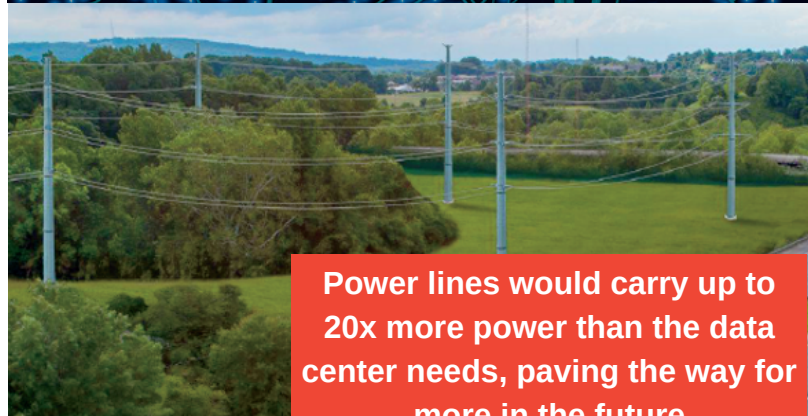

Carter Nevill, Mayor | cnevill@warrentonva.gov

657 homes and businesses within 2,500 feet of the data center would hear the noise

Power lines would carry up to 20x more power than the data center needs, paving the way for more in the future
